Phew what can I say. Skat either you love it or you hate it. Took me years to get a mediocre Skat player in the analog world. Now I can even play some hands on the pc. I love that you even can use all the weird pub rules in different variations... Seriously who plays 3 Ramsch in a row if noone bids? :) Graphics are ok but you just look at the cards anyways.
So if someone wants to learn one of the weirdest card games out there get this game.
